## EXPERIENCE

**Senior Product UX/UI Designer — Align Technology Inc.** (Contract), San Jose, CA | 06/2025–11/2025  
MyInvisalign iOS, Android, Smartwatch, Web app, Align Special Market Portal, B2B Platform

- Designed new features improving patient compliance and doctor visibility into treatment progress.
  - Enhanced the Align Special Market Portal by streamlining workflows for account and data management.
  - Delivered user flows for registration, social login, data export, and the patient account lifecycle.
  - Created high-fidelity mockups, design system components, icons, and reusable UI patterns.
  - Provided detailed visual and technical specifications for engineering teams.
  - Analyzed user feedback and analytics to refine usability and drive engagement.
  - Collaborated closely with PMs, engineers, researchers, and design teams throughout the product lifecycle.
- 

**Senior Product UX/UI Designer — IBM** (Contract), Remote | 08/2024–12/2024  
AI-Powered Productivity iOS, Web app leveraging IBM Cloud & Azure OpenAI Whisper

- Designed a multi-platform app featuring recording, transcription, and AI-driven meeting summaries.
  - Created user flows, interactive prototypes, and high-fidelity mockups using IBM Carbon Design System.
  - Facilitated design reviews and incorporated stakeholder and engineering feedback.
  - Delivered complete visual assets and design specification
- 

**Senior Product UX/UI Designer — GroupEra** (Freelance), Santa Clara, CA | 08/2023–07/2024

- Designed web-based and native mobile applications from wireframes through polished UI.
  - Built complete UI asset libraries and detailed technical documentation for development teams.
  - Designed branding systems, corporate identity packages, marketing materials, and product packaging.
  - Created illustrations and visual assets for digital and print, ensuring cohesive multi-channel branding.
  - Managed full design workflows aligning aesthetics, usability, and business goals
- 

**Senior Product UX/UI Designer — SupplyShift**, Santa Cruz, CA | 01/2022–07/2023  
Enterprise B2B SaaS Supply Chain Transparency Platform

- Led UX/UI for a supply-chain transparency platform improving visibility and sustainability reporting.
  - Reduced feature design and dev time by 40% through design system creation and process optimization.
  - Designed key features including onboarding, account management, dashboards, and supplier data tools.
  - Conducted user research, usability testing, and analytics reviews to inform design decisions.
  - Delivered user journeys, wireframes, prototypes, and high-fidelity designs with detailed specs.
-

**Product UX/UI Designer – Align Technology Inc.** San Jose, CA | 05/2018–02/2021  
MyInvisalign iOS, Android, Smartwatch, Web app, IDS Doctor Portal

- Designed and launched major features improving patient–doctor communication and treatment adherence.
  - Led UX for Virtual Care, chatbots, photo workflows, referral programs, and subscription flows.
  - Conducted interviews, user research, and accessibility testing (WCAG AA/AAA, Section 508).
  - Created design systems, iconography, and high-fidelity prototypes for multi-platform rollout.
  - Partnered with PMs, engineering, marketing, and vendors for end-to-end implementation.
- 

**Lead Product UX/UI Designer – Intel / McAfee**, Santa Clara, CA | 05/2014–04/2018  
McAfee Safe Connect, Safe Call, Mobile Booster, and beSafe mobile consumer apps

- Designed multiple native iOS/Android consumer apps enhancing device security and performance
  - Served as product designer for beSafe, an AR pilot AI app for collision detection and emergency alerts.
  - Streamlined onboarding, subscription, and in-app purchase experiences, boosting engagement.
  - Developed design systems, UI libraries, and the Ico McAfee font used across digital products.
  - Conducted usability testing and collaborated across PM, engineering, marketing, and localization teams.
- 

**Principal Visual Designer – Oracle**, Redwood City, CA | 6/2012–02/2014  
Alta Design System, NetBeans, JDeveloper, WebCenter

- Led UX/UI design for Oracle’s enterprise developer tools and Alta Design System.
  - Designed and documented reusable components and icons for consistent cross-product experiences.
  - Reduced customization time for white-label products through scalable design architecture.
  - Redesigned the NetBeans website and marketing collateral to align with updated corporate branding.
- 

**Web UX/UI Designer – Yahoo!** (Contract), Sunnyvale, CA | 01/2012–03/2012  
Yahoo! BOSS, Finance, News, and Answers

- Designed dashboards and configuration tools for Yahoo! BOSS (build-your-own search platform).
  - Created media modules such as Explore Related and image carousel components.
  - Produced wireframes, prototypes, and high-fidelity visual assets.
- 

**Web UX/UI Designer – Kaiser Permanente** (Contract), Oakland, CA | 02/2011-12/2011  
Choose Your Doctor Online, My Doctor, KP Live Well Be Well, Leadership Institute

- Designed the “Choose Your Doctor Online” feature for desktop and mobile, improving patient access.
  - Maintained and evolved key KP websites supporting lifestyle and education initiatives.
  - Delivered wireframes, prototypes, high-fidelity UIs, and facilitated usability testing.
-
